RATE RMDS (RESIDENTIAL MULTI-DWELLING SERVICE)

New customers that qualify for the Third-Party Supplier Option but have commenced service under the Company Sales Service Option have (3) months from their initial gas flow to elect to switch to the Third-Party Supplier Service Option. However, these new customers may not switch during the winter months of November – March. Once the new customer's three-month window in which the customer may select service expires, the customer must continue service under the selected service for 12 months.

11. Service Regulations:

The Company's Service Rules and Regulations shall apply to service under this Rate RMDS, to the extent not inconsistent with the terms and conditions of this rate RMDS.

12. Return to Company Sales Service:

Should the Customer request a switch from the Third-Party Supplier Service Option to the Company Sales Service Option, the Company will evaluate such request based upon its then current ability to serve the Customer considering its interstate transportation, storage and supply position. The Company will endeavor to accommodate such requests but may be required to charge the Customer higher costs that it may incur for newer, higher cost interstate pipeline capacity (incremental facilities) to accommodate such request.

New customers that have initially elected the Third-Party Supplier Service Option and qualify for return to Company Sales Service Option are subject to the limitations outlined in Section 10 above, and cannot return during the winter months of November through March.
