

GRRRR the NATURAL GAS SAFETY BEAR

Play it **safe** around **natural gas**.

We add a **strong smell** to natural gas so you know when there's a leak (**it smells like rotten eggs**).

Tell Mom or Dad or some other adult that you know that you smell natural gas.

Have everyone leave the house and leave the doors and windows open so fresh air can enter. Stay outside, away from the house.

GRRRR the NATURAL GAS SAFETY BEAR

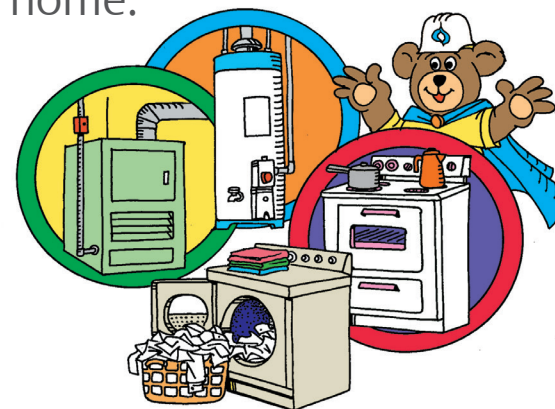

Play it **safe** around **natural gas**.

Natural gas is pumped through large pipes to our towns and cities.

Because natural gas is such a clean energy source, it has many uses in the home.

Don't play near pipes that carry natural gas and don't hang things on the pipes.
Be careful around natural gas stoves.
