Reynolds earned a master's degree in business administration from the University of New Haven and a bachelor's degree in industrial technology from Central Connecticut State University.

Working together to deliver a more accessible clean energy model that promotes healthier, more sustainable communities every day.

Our purpose reflects our commitment to transforming how we serve our customers by prioritizing the well-being of people and the conservation of the planet. It is inspired by and built on our three core values.

Sustainable

We seek to be a model of inspiration for creating economic, social and environmental value in our communities, and we act positively to affect local development, generate employment, and give back to the community.

Agile

We act efficiently and with passion to drive innovation and continuous improvement at both the local and global level.

Collaborative

We work together toward a common purpose and mutual benefit while valuing each other and our differences.
